**Subject:** Pipeline Transfers - Authorization Discussion

To all,

We have been discussing among ourselves if ITC could have permission and authorization to begin limited terminal activities.

Specifically, ITC has had multiple requests from our Pipeline Connected Customers to begin making pipeline transfers. Some transfers would be to our customers and some would from our customers.

These transfers would be in areas of the terminal that are not in the Impacted Tank Farm.

We would obviously do minimal transfers based on the need and the priority, but wanted to begin these discussions in advance to get everyone thinking ahead. Thanks.

Please comment as needed.
